WASHINGTON D.C. 20548

March 13, 1981

B-200951

To the Board of Directors  
National Consumer Cooperative Bank

*Financial Position*

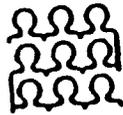

We have examined the balance sheet of the National Consumer Cooperative Bank as of September 30, 1980, and the related statements of income, changes in equity, and changes in financial position for the year then ended. This was the Bank's first full year of operation. Our examination was made pursuant to the National Consumer Cooperative Bank Act (12 U.S.C. 3001-3050) and the Government Corporation Control Act (31 U.S.C. 841-869) and in accordance with generally accepted government auditing standards and, accordingly, included such tests of the accounting records and such other auditing procedures as we considered necessary in the circumstances.

In our opinion, the accompanying financial statements present fairly the financial position of the National Consumer Cooperative Bank as of September 30, 1980, and the results of its operations and the changes in its financial position for the year then ended, in conformity with generally accepted accounting principles.

Notes to Financial Statements  
September 30, 1980

## 1. Organization

The National Consumer Cooperative Bank is a mixed ownership government corporation, chartered by Congress on August 20, 1978, for the purpose of providing loans, technical assistance, capital investment advances, and interest supplement payments to cooperatives.

## 2. Summary of Significant Accounting Policies

### One-year Financial Statements

The Bank began operations on September 25, 1979; the results of operations for the year ended September 30, 1979, covers a six-day period, and are thus not comparable to the results of operations for the year ended September 30, 1980. Accordingly, financial statements are presented for one year only.

### Basis of Accounting

Assets and liabilities, income and expenses, are recognized on the accrual basis of accounting.

### Basis of Accounting for Appropriations by the United States Government

The United States Government appropriates funds for the purchase of class A stock in the Bank, for the Self-Help Fund, and for operating expenses during the Bank's early stages.

Appropriations for operations, net of any lapsed or rescinded appropriations, are recognized as revenue to the Bank in the year in which the funds are expended for operations. These appropriations are consumed by obligations of the Bank. An obligation occurs when goods are ordered or when a contract for services is signed. Until the goods are received or the services are performed, a portion of the Bank's equity is reserved for these unexpended obligations. (See note 9.)

### Allowance for Possible Loan Losses

The Bank is on the allowance method in providing for loan losses. Accordingly, any actual loan losses are to be charged to the allowance for possible loan losses and all recoveries are to be credited to it. The provision for possible loan losses charged to operating expense is based on

### 2. Summary of Significant Accounting Policies, Continued

factors which, in management's judgment, deserve current recognition in estimating possible loan losses. Such factors include growth and composition of the loan portfolio, the relationship of the allowance for possible loan losses to outstanding loans, and economic conditions.

#### Furnishings and Equipment

Furnishings and equipment are stated at cost less accumulated depreciation computed on the straight-line method over their estimated useful lives of five years.

Maintenance and repairs are expensed as incurred.

#### Income Taxes

The Bank has been denied an exemption by the Internal Revenue Service from federal income tax under section 501(c)(4) of the Internal Revenue Code of 1954. An application has been made requesting IRS to reconsider its denial.

Section 109 of the National Consumer Cooperative Bank Act (Public Law 95-351) provides that, until the class A stock purchased by the United States government is redeemed, the Bank is exempt from state and local income taxes.

#### Retirement/Thrift Plan

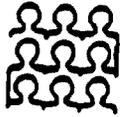

The Bank is implementing a trustee retirement/thrift plan covering substantially all of the employees of the Bank. An estimate of the Bank's past service cost through September 30, 1980, has been accrued in the amount of \$150,000.

### 3. Funds with United States Treasury

Funds with United States Treasury include accounts for the following purposes:

Operations	\$ 4,098,389
Title I loans	16,307,929
Self-Help Fund	<u>11,082,456</u>
	<u>\$31,488,774</u>

# NATIONAL CONSUMER COOPERATIVE BANK

## Notes to Financial Statements

### 3. Funds with United States Treasury, Continued

The amounts reported above are net of lapsed appropriated funds. Funds for the purchase of class A stock and for the Self-Help Fund have been appropriated for a period of two years. Funds for operations have been appropriated for one year. At the end of that period of time, any funds which have not been obligated by the Bank lapse and revert to the United States Treasury. At September 30, 1980, the following appropriated funds lapsed:

Operations (fiscal year 1980)	\$ 44,752
Self-Help Fund (fiscal year 1979)	<u>417,544</u>
	<u>\$462,296</u>

### 4. Short-term Investments

Short-term investments consist of United States Treasury Notes purchased at a rate of 9.75% under agreement to resell on October 15, 1980.

### 5. Interest Receivable

Interest receivable consists of the following:

Interest receivable on current loans	\$60,359
Interest receivable on investments	<u>801</u>
	<u>\$61,160</u>

### 6. Loans

A breakdown of loans included in the balance sheet follows:

Housing	\$ 271,513
Food	1,957,762
Other consumer goods	2,763,961
Producer	<u>132,990</u>
	<u>\$5,126,226</u>

The allowance for possible loan losses of the Bank as of September 30, 1980, is five percent of total loans outstanding, and results entirely from the provision for possible loan losses charged to operating expense.

### 9. Equity, Continued

Each holder of common stock is entitled to one vote in the affairs of the Bank, regardless of the number of shares held by that stockholder.

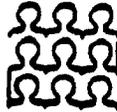

Self-Help Fund appropriations by the United States Government consist of cumulative appropriations for the Self-Help Fund, net of funds lapsed and rescinded, as follows:

	Fiscal year 1979 <u>appropriation</u>	Fiscal year 1980 <u>appropriation</u>	<u>Total</u>
Appropriations	\$1,000,000	\$17,000,000	\$18,000,000

## Notes to Financial Statements

### 9. Equity, Continued

The amount of unexpended appropriations for operations at September 30, 1980, corresponds to those obligations for goods and services which have not yet been received or performed. They consist principally of uncompleted contracts for the delivery of technical assistance, and professional fees for services to be rendered in the future, as follows:

Technical assistance contracts	\$1,987,541
Audit services	25,000
Other professional service contracts	631,466
Office renovations	681,557
Other	<u>258,929</u>
	<u>\$3,584,493</u>

### 10. Self-Help Fund

The Self-Help Fund, under the provisions of the National Consumer Cooperative Bank Act, may be used only to provide capital investment advances and interest supplement payments to eligible cooperatives. A similar restriction is imposed on repayments of and interest received on these advances and payments.

### 11. Operating Lease

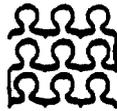

The Bank leases its Washington, D.C. premises under a five-year operating lease with General Services Administration, which is cancelable with 120 days' notice. The agreement has an escalation clause effective after 1983. Minimum future rental payments, assuming noncancellation, are as follows:

#### Year ended September 30,

1981	\$ 321,300
1982	321,300
1983	321,300
1984	321,300

	<u>\$1,392,300</u>

The rental expense under this lease in 1980 is \$110,021.

(Continued)

## Notes to Financial Statements

### 12. Retirement/Thrift Plan

The provision for retirement/thrift plan charged to earnings amounts to \$150,000 in 1980 which is the estimated past service costs of the plan.

### 13. Commitments

In the normal course of business, there are outstanding commitments to extend credit which are not reflected in the accompanying financial statements. At September 30, 1980, these commitments amount to \$11,718,604.

### 14. Subsequent Event

President Reagan's February 18, 1981 Program for Economic Recovery includes proposals that appropriations for the lending programs of the National Consumer Cooperative Bank, which have amounted in total to \$174.9 million through fiscal year 1981, be reduced by \$91 million; that there be no Federal funding beyond September 30, 1981; and that the Bank be terminated. There has been no congressional action on these proposals.
